## Projects

---

### Mental Health Support Platform - Peace-Path

- Developed a web app to provide mental health support with features like meditation guides, stress-relief exercises, and online counseling which improved user satisfaction scores by 70%.
- Engineered a responsive website interface with HTML, CSS, and JavaScript; utilized XAMPP for server management and streamlined project workflows using Jira, enhancing team productivity by 25% and reducing project completion time by 15%.

### AI Chat-bot for Academic Support - Py wizard

- Created an AI chat-bot at college that assisted more than 100 students in obtaining notes on any topic without the need to search through PDFs.
- This tool improved student's study routines by reducing the time spent searching for notes by 60%
- It also increased reading efficiency by 40%, providing quick access to necessary information and enhancing overall productivity.

## Experience

---

### Accenture Nordics Developer Job Simulation

- Established a new benchmark for quality code deployment, reducing deployment errors by 40% by enforcing rigorous code review processes and comprehensive testing protocols.

### Back-end Engineering Virtual Experience Program

- Completed the Back-end Engineering Virtual Experience Program from Forage, where I gained hands-on experience in back-end development.
- Acquired practical skills in database management and API development, resulting in a 35% improvement in coding efficiency and a 20% reduction in debugging time.

## Certifications

---

### Full Stack Web Developer

- Certified Full Stack Web Developer from Udemy.

### UX Design Fundamentals

- Certified in UX Design Fundamentals from the California Institute of Arts.

### Mock-up Design and High Fidelity Prototype

- Finished a guided project in Mockup Design and High Fidelity Prototype using Figma, a course by Coursera Project Network, with a certificate.

### Microsoft Azure AI Fundamentals Workshop

- Received a certificate of participation for completing the workshop.

### TCS ion Young Professional Course

- Concluded a course covering Collaborations, Public Speaking, soft skills, and other professional skills.

## Achievements

---

### College Hackathon on Mental Health Support Platforms

- Participated in a hackathon and developed a comprehensive mental health support platform that was recognized for its innovative features and user experience.
- Gained insights that led to a 20% improvement in website organization, contributing to a stronger overall project presentation.

## Extracurricular Activities

---

### Tree Planting

[Dec 2023]

- Collaborated with a group of 4 friends to plant a tree
- Created a video highlighting the importance of planting trees and environmental conservation.
- Watched by over 130 people, raising awareness and encouraging community involvement.
